Oracle Calendars Agent for Microsoft Outlook (OCALM) Features: Current Version: 11.18.0.1 (11yc - 2919741 Patch) Free Download For Windows 7 32 bit X86 Oracle Calendars Agent for Microsoft Outlook (OCALM) Requirements: Oracle NetBeans is a free integrated development environment (IDE) that provides tools and frameworks that enable developers to write Java SE and Java EE applications, as well as other types of applications, such as those written in C, C++ and XML. To download and install Oracle NetBeans: 1. Go to the NetBeans Download web page and click on the "Download" or "All Releases" link. 2. Click on the "Download" link for your operating system (Windows, MacOS, Linux) and accept software license agreements as necessary. 3. After the installation has finished, run Oracle NetBeans from its shortcut icon or from the Windows Start menu as you would any other program. Oracle NetBeans Features: Current Version: 11.18.0.1 (11yc - 2919741 Patch) Free Download For Windows 7 32 bit X86 Oracle NetBeans Requirements:

Oracle GlassFish Server is a free, open source application server that was designed to simplify development of Java EE applications. GlassFish Server is the first commercial offering from the open source community. It features an embedded application server and an integrated Java EE JAX-WS and JPA 2.0 implementation. The current version of GlassFish Server is 3.1.1, and it is supported by Oracle through Service Pack 1 (SP1) for Oracle Java SE 5 and later releases and Service Pack 2 (SP2) for Oracle Java SE 6 and later releases.
