His first steps. Aww...
I didn't use ragdoll after
these initial steps.

Interface | Perks.

I was shocked the first time I entered the game and heard the menu song - Flashbacks of all the things I've fought for and what I've tried to protect, with both my fearness and loneliness in my previous life came into me in one second. This is not just a simple electronic song, but a music with regard to the memory of a man who struggled to grow & live with all the happiness and bitterness which only experienced and understood by him, and most importantly, he knows he will never be defeated, just like a boxer.. Best OST !!! Have no idea what this is for, but still bought. Loved the soundtrack! And the artbook is also pretty nice. Highly recommend! :). Best useless DLC ever!

Kidding.

Great stuff.
